The Hampton
2 Bedroom / 2 Bath
1,378 sq. ft.

Your home opens up before you when you walk into The Hampton. A grand hall entrance flows into the sweeping spaces of a kitchen, dining room and ultimately, the spacious living room. This space is naturally illuminated by three generous windows and connected to your private balcony. Luxury drives the design of the owner's suite with a cozy corner nook ideal for your favorite chair; a uniquely detailed master bath with his-and-her sinks, soaking tub and separate shower, and a generous walk-in closet.. Additional practical considerations of The Hampton allow easy conversion of the second bedroom into your home office complete with ample closet space for all your paperwork; a second full bath that's private yet convenient for guests, and an especially large utility closet to accommodate not only a full size washer and dryer but whatever else you need to stow away.
